

ACCREDITED CALIBRATION OF YOUR CRANE SCALES UP TO 50 t

➤ KERN & SOHN and EHP Wägetechnik – strong partners for heavy loads

Working closely with EHP Wägetechnik, you will receive a comprehensive service covering all aspects of your crane scale – from accredited calibration to maintenance. This partnership combines excellence in metrology with practical service expertise – ensuring maximum operational reliability and minimum downtime.

- Accredited calibration of crane scales up to 50 t, as well as calibration of load links, measuring shackles and load cells with evaluation electronics at the KERN & SOHN site in Bühl
- Two experienced specialists: KERN & SOHN for calibration, EHP Wägetechnik for maintenance
- A comprehensive solution: accredited calibration and maintenance from a single source
- You will receive a calibration certificate bearing the accreditation symbol, which documents traceability and compliance with all relevant standards and regulations
- Time and cost savings: No need to coordinate with multiple service providers
